

## PUBLIC CLOUD

### CREATING AN INSTANCE IN IBM CLOUD

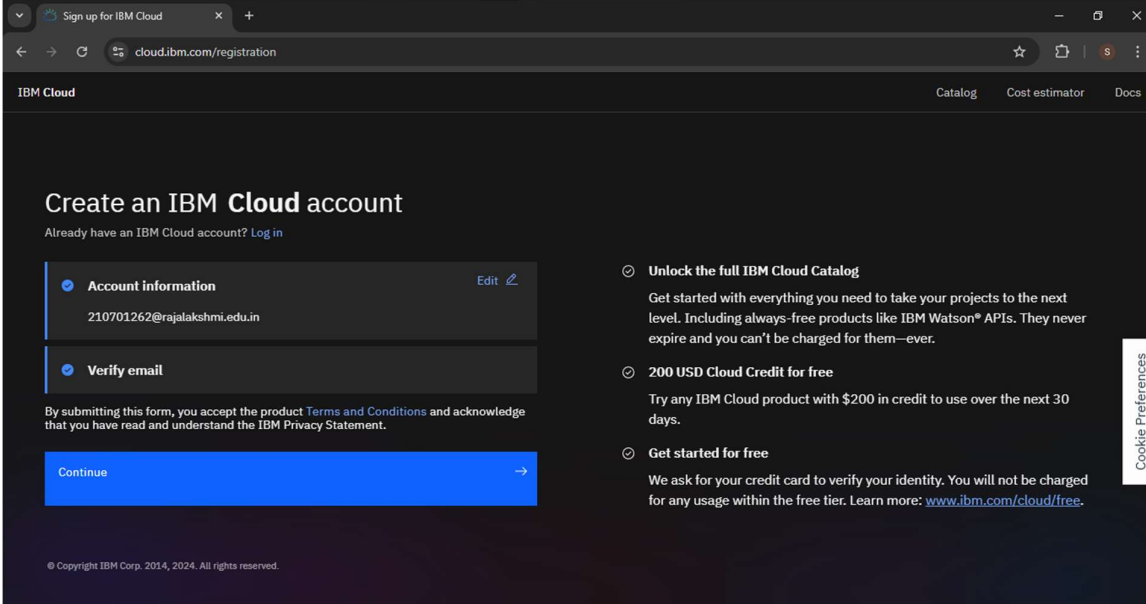

#### AIM:

Develop a simple application to understand the concept of PAAS using IBM CLOUD

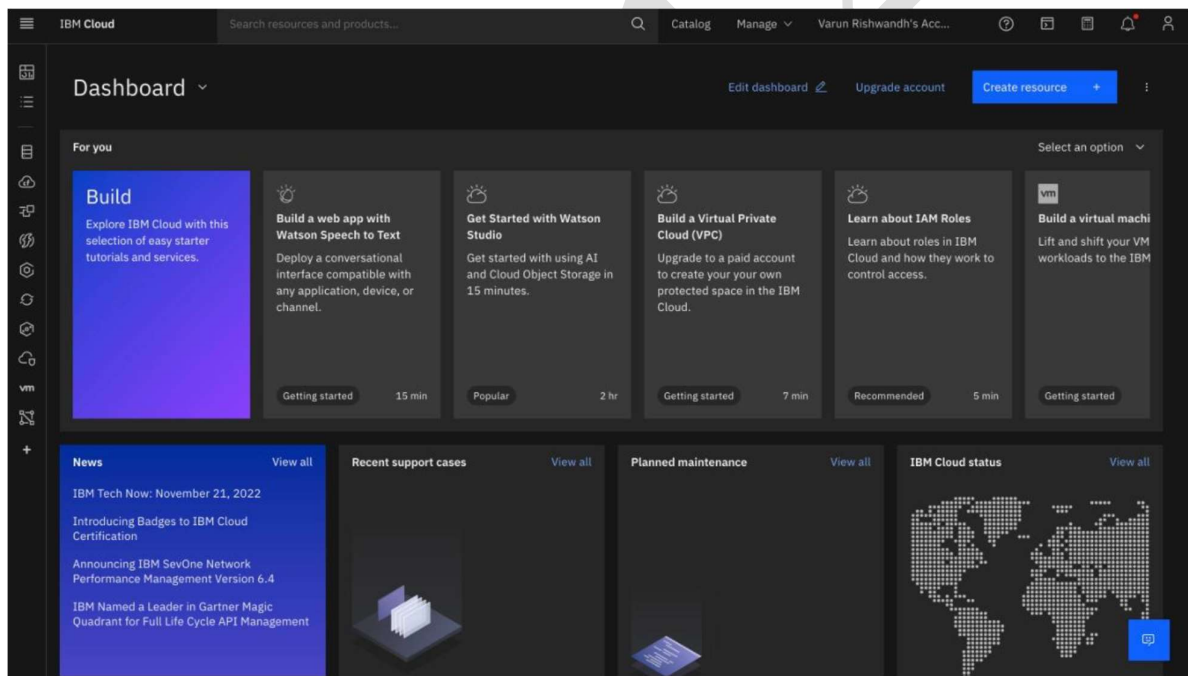

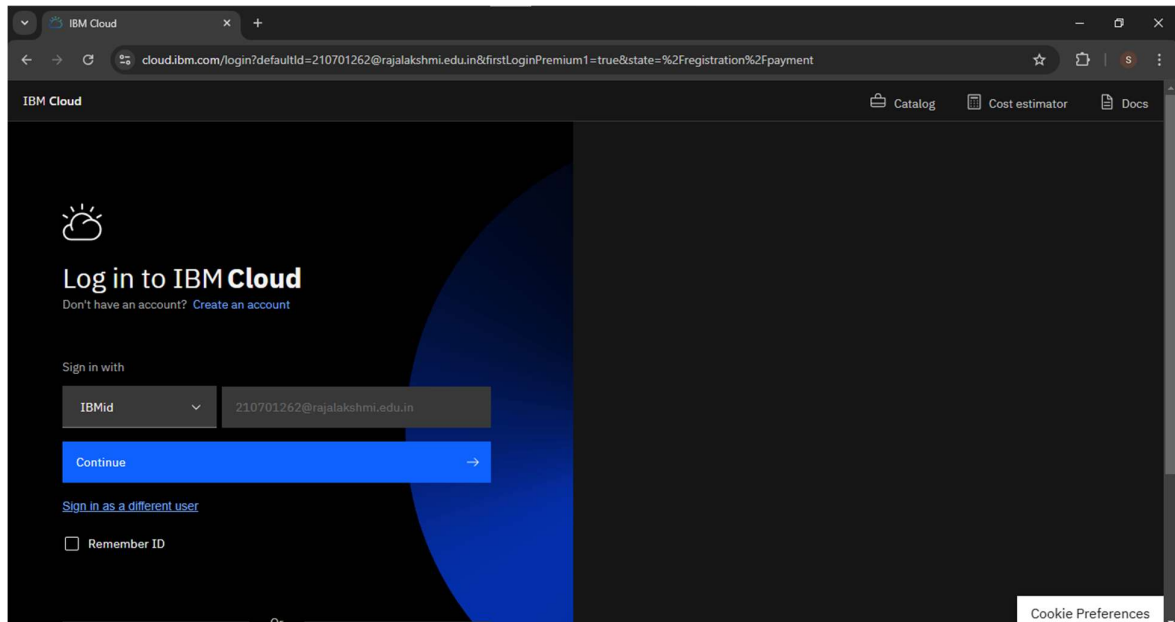

#### PROCEDURE:

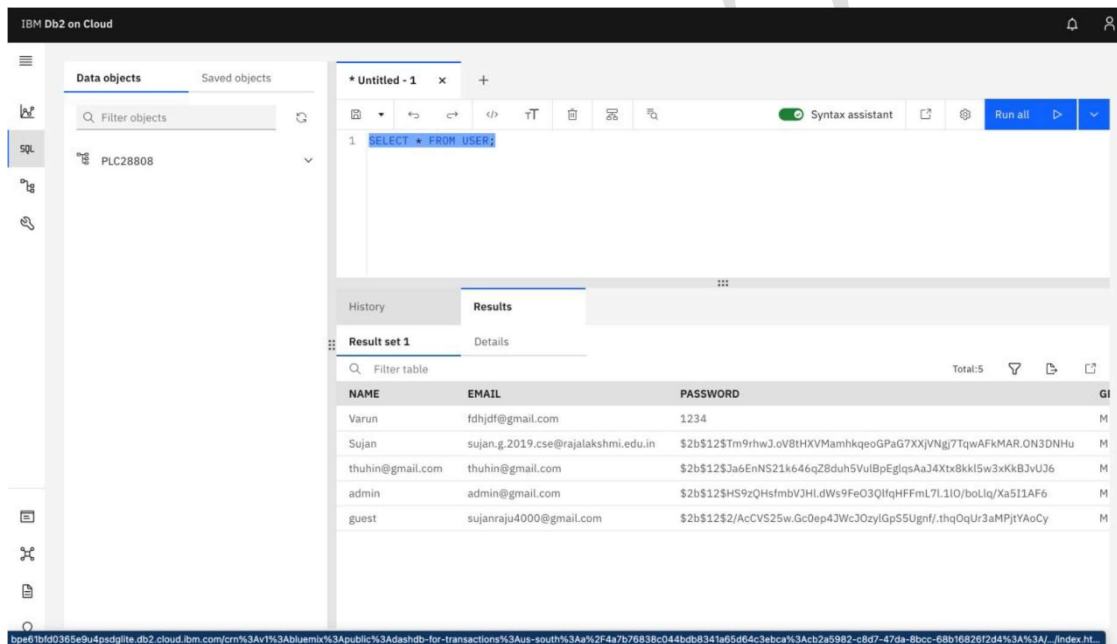

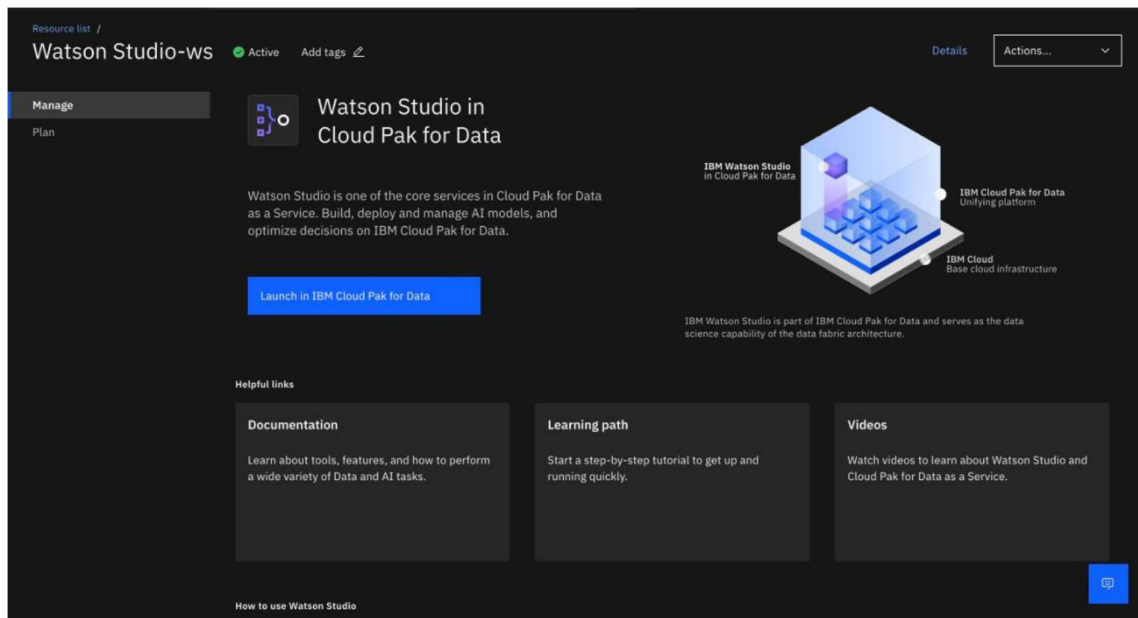

1. In the IBM Cloud console, go to Menu icon Menu icon > VPC Infrastructure > Compute > Virtual server instances.
2. Click Create and enter the information required.
3. Click Create virtual server instance when you are ready to provision

#### OUTPUT:

The screenshot displays the IBM Cloud registration page. The browser address bar shows 'cloud.ibm.com/registration'. The page header includes 'IBM Cloud' and navigation links for 'Catalog', 'Cost estimator', and 'Docs'. The main heading is 'Create an IBM Cloud account', with a link for existing users to 'Log in'. The registration process is divided into two sections: 'Account information' and 'Verify email'. The 'Account information' section shows the email '210701262@rajalakshmi.edu.in' and an 'Edit' link. The 'Verify email' section contains a checkbox and a 'Continue' button. To the right, three benefits are listed: 'Unlock the full IBM Cloud Catalog', '200 USD Cloud Credit for free', and 'Get started for free'. A 'Cookie Preferences' button is visible on the right side. The footer states '© Copyright IBM Corp. 2014, 2024. All rights reserved.'

## RESULT:

Thus, a simple application to understand the concept of PAAS using IBM CLOUD is implemented.
